Draft Report on Carcinogens (RoC) Monograph on Antimony Trioxide

**Peer Review Charge
January 24, 2018**

The Monograph Peer Review Panel is charged to:

- (1) Comment on whether the Draft RoC Monograph on Antimony Trioxide is technically correct, clearly stated, and objectively presented.
- (2) Provide opinion on whether there is currently or was in the past significant human exposure to antimony trioxide for persons residing in the United States.
- (3) Vote on whether the scientific evidence supports (a) the level of evidence conclusions regarding carcinogenicity and (b) NTP's preliminary policy decision on the listing status of antimony trioxide in the Report on Carcinogens.
